216-223	Redesign of work stations to minimize musculoskeletal disorders for guitar product workers in Indonesia Indah Pratiwi, Isnainiyah Wardatul Jannah

Editorial Preface

Greetings,

The editors would like to express their deepest gratitude to the authors who have submitted their articles to this edition of Operations Excellence: Journal of Applied Industrial Engineering. In addition, we would also like to thank the editors and reviewers who have contributed to the publication of this edition. Operations Excellence: Journal of Applied Industrial Engineering (OE) Vol. 16 No. 2 consists of 10 articles submitted by authors. It is an honor for us to gain the trust of various authors.

The editors always strive to improve the quality of the OE Journal. The OE Journal is a journal accredited by the Directorate General of Higher Education with a Sinta 3 rating. Therefore, the editors strive to improve the OE ranking. We are also in the process of adding indexing such as DOAJ and ICI Copernicus. One of the efforts made by the editors is to add editorial board members from abroad. We are also increasing the number of international reviewers to improve the quality of the articles submitted. The next edition of OE will be published in November 2024. We always accept constructive criticism and suggestions to improve the quality of OE.

Sincerely,

The editors
