Dear,

I/We wish to submit an original research article entitled "**Analysis of Pediatric Fixation Equipment with Audio-Video in Chest Radiography Examination of Posteroanterior and Lateral Projections of article**" for consideration by SINERGI.

We confirm that this work is original and has not been published elsewhere, nor is it currently under consideration for publication elsewhere. We promise not to withdraw this article after it has been processed by the Editorial Team. If there is a withdrawal, we are willing to pay a penalty of USD 150 (IDR 2000K) to the SINERGI Editorial Team.

In this paper, I/we report on / show that:

Field	:	Radiographic Technique
Topic	:	Fixation Equipment for Pediatric in Chest Radiography Examination
Brief Background	:	Pediatric patients are generally uncooperative during radiology examinations. Radiographic images can become blur, it will cause to repeat examinations, increasing radiation exposure, and it can pose significant risks to children, patient families, and radiation workers. The research aims to create and test the effectiveness of a fixation device equipped with Audio-Visual elements for pediatric chest radiography examinations in Anteroposterior and Lateral projections.
Research Problem	:	How to make a fixation device to avoid the movement of pediatric patients.
Overview of Method	:	The research design is an experimental study focused on the development of a pediatric thoracic radiography fixation device accompanied by audio-visual elements. Sampling is done through purposive sampling with 66 of sample sizes.

Significant finding	:	Development of a pediatric thoracic radiography fixation device.
---------------------	---	------------------------------------------------------------------

We have no conflicts of interest to disclose.

Thank you for your consideration of this manuscript.

Sincerely,

Nursama Heru Apriantoro

AUTHORSHIP STATEMENT

I/We wish to submit an original research article entitled “***Analysis of Pediatric Fixation Equipment with Audio-Video in Chest Radiography Examination of Posteroanterior and Lateral Projections of article***” for consideration by SINERGI.

All persons who meet authorship criteria are listed as authors, and all authors certify that they have participated sufficiently in work to take public responsibility for the content, including participation in the concept, design, analysis, writing, or revision of the manuscript.
